Hello there!

Frontend Developer — Where UX Meets Code

With a background in Communication Design and 5+ years of developing frontend interfaces, I specialize on turning UX and visual design into accessible, high-quality digital products and scalable systems, working closely with product and design teams.

Javascript

WORK EXPERIENCE

Hypnotic Digital Agency, Frontend Developer

Sep 2024 - Current — Remote, Full-time

- Developed responsive corporate websites using creative coding with modern frameworks, delivering engaging user experiences with precise layout fidelity and polished interaction details.
- Delivered these websites with improved performance, accessibility and SEO visibility through structured content and optimized assets.
- Enhanced existing projects by implementing new features and technical improvements.

NIUP Technologies, Frontend Developer

Sep 2020 - Aug 2024 — Braga, Full-time

- Developed and documented modular Angular UI components for an internal library, aligning with the design system and improving consistency and reusability across products.
- Collaborated with the design team lead on component specs and maintained the library roadmap and managed development workflows;
- Transitioned to developing React Web Applications for the company's no-code website builder platform, broadening my skill set;
- Advanced into a dual role as Frontend Developer and Responsible for the Web Development Department, gaining experience in team management and client communication while actively contributing to development tasks.

Student Finance, UI/UX Designer

Aug 2020 — Remote, Freelance

- Delivered detailed interface design for new and existing features, improving usability and visual clarity;
- Applied and evolved the existing visual language through styling and interaction states to ensure consistency across the product.

SheerMe, Frontend Developer

May - Jul 2020 — Remote, Freelance

- Developed responsive website pages by translating design mockups into HTML/SCSS and JavaScript, ensuring cross-browser compatibility and interactive functionality.

Trafidèles, Designer & Frontend Developer

May 2020 - Oct 2021 — Remote, Freelance

- Designed brand identity and business stationery, produced website wireframes/layouts, and developed the final site using HTML, SCSS, and JavaScript with cross-device compatibility.
